

NPO DONOR DATABASE

A donor database specifically developed to assist South African Non Profit Organisations is now available.

This database contains over 1,000 donors comprising South African Corporates, Trusts & Foundations, Overseas Funders as well as Government Funding Agencies.

As Social Impact Consulting has provided fundraising consulting, training and mentoring to dozens of South African NPOs, it became an essential tool to support these processes.

This database is now being made available to NPOs throughout South Africa and will assist NPOs from all sectors in identifying new donor prospects.

HOW MUCH DOES THE DATABASE COST?

R650

DELIVERY METHOD & FORMAT OF DATABASE

The NPO Donor Database is set out in an easy to use Excel spread sheet. The Excel format makes the database very easy to utilise as you can sort, edit and update the database to suit your needs. Upon receiving your order, we will email the database to you and you can start using it straight away.

WHO DEVELOPED THE DATABASE?

The NPO donor database has been developed by fundraising expert Michele Kay who has 24 years' experience in the Non Profit & Development Sector. Michele has a Master's Degree in Public & Development Management from WITS and has assisted various NPOs in raising in excess of R100million over the past two decades.
